## Press Release

Hermaringen, 20<sup>th</sup> November 2017

### Hauff-Technik continues on the path to internationalisation and opens a new subsidiary in Switzerland

Hauff-Technik is strengthening its presence in Switzerland with the new office in Oensingen in the canton of Solothurn. Operational business begins on 1 January 2018.

**Hermaringen/Oensingen, 20.11.2017** – With the foundation of Hauff-Technik Swiss AG, the company Hauff-Technik GmbH & Co. KG, which is based in Hermaringen in Germany, is further expanding its presence on the international scene.

At the Oensingen site, the team led by Stephan Rauch, who assumes the position of managing

director, has established the structures to make the purchasing platform attractive to the Swiss market. The favourable geographical location provides the Swiss subsidiary with an ideal basis for moving closer to the customer in this dynamic region and offering excellent customer service.

LEONI Studer AG was the official distributor for Hauff-Technik in Switzerland for many years. The innovative cable, pipe and line entries by Hauff-Technik are an ideal addition to the high-quality cable systems in the Swiss company's product portfolio. In the context of focussing on LEONI's core business as a solutions provider for cable systems, direct sales will in future take
