Hermaringen, 5th July 2017

PRESS RELEASE

Hermaringen – Hauff-Technik opens office in Singapore

To expand the international distribution of its products and solutions, Hauff-Technik GmbH & Co. KG has opened a representative office for the Asian market together with svt fire protection.

from left to right: Dr. Michael Seibold, CEO Hauff-Technik, Manfred Frensch, Country Manger Hauff-Technik, Thomas Frommeyer, VP International Sales svt, Mirko Köhler, svt, Holger Koch, CEO svt

Already in 2015, Hauff-Technik founded a branch in the Middle East, based in Ajman, United Arab Emirates and employs 3 people in the meantime. With the message "the best of two worlds", Hauff-Technik now wants to supplement the product portfolio on the Asian market, together with the fire protection specialist svt Brandschutz GmbH, based in Seevetal near Hamburg.

In an atmospheric ceremony the joint sales office was inaugurated yesterday. Many invited

guests took part in the festivities.

In his opening speech, Dr. Michael Seibold, CEO of Hauff-Technik, mentioned the motives entering a shared office with svt fire protection in Singapore. "We, Hauff-Technik and svt fire protection, have been going together for many years. In the meantime, this has become more than just a community of interests. We have considered that we have the same moral values and ideas and are pursuing similar projects."

Hauff-Technik is one of the leading European manufacturers of sealing systems for cables, pipes and building entries. The company group svt is the specialist in the field of fire protection and damage restoration. "With this partnership, we will be able to offer our customers an overall package of optimal advice and a comprehensive product range when it comes to a sealing against penetrating water, gas and fire," says Holger Koch, CEO svt fire protection.

With Manfred Frensch, who is now responsible for the Australasian market, Hauff-Technik was able to win a long-term employee, who is managing the new location. Together with Mirko Köhler of svt fire protection, he will head the office in Singapore. "I am looking forward to the new task and the opportunity to work for Hauff-Technik in order to bring the products and solutions to the market," says Frensch.

With this cooperation and expansion of the company presence, Hauff-Technik has developed the basis for further growth not only at the national level but also in the international area.
